CERTIFICATIONS

Received Participation
certifications from

I am a B.Tech 3rd-year student at Narsimha Reddy Engineering College with a strong interest in programming, artificial intelligence, and innovative technologies. I am enthusiastic and motivated student. Skilled in Python and C++ with hands-on experience through academic projects and hackathon participation. Completed certified courses including *Joy of Computing using Python (NPTEL)* and *Prompt Design in Vertex AI*, earning a badge for the latter. I am actively seeking internship or project-based opportunities to apply and enhance my skills in software development, AI, and real-world problem solving. Eager to learn, contribute, and grow in a dynamic tech environment.

EDUCATION

I am 3rd year student pursuing my B. Tech in Artificial Intelligence and Machine Learning from Narsimha Reddy Engineering College, affiliated to Jawaharlal Nehru Technological University, Hyderabad, Telangana.

- Kitech AI workshop
- NationBuilding Case Study competition
- Skill Intern data science workshop
- NPTEL – Joy of computing using python
- TIC bootcamp
- Ignite 2k25 and 2k26
- MindWars
- KLH hackathon participation
- Zignasa hackathon certificate
- ICAT internship aptitude test certificate
- Codestorm hackathon certificate
- 3-day idea python fest
- InternsVeda – Exam completion, Internship completion, LOR, Training completion, Outstanding Performance certificates
- Infosys 18 courses certificates
- 2 course badges from Infosys

Communication

I have actively participated in various activities which include hackathons and workshops.

Leadership

I had experience leading various hackathons during my academic tenure.

PROJECTS COMPLETED TILL
NOW

HACKATHONS ATTENDED

- Codestorm hackathon
- Zignasa 2k24 hackathon
- HAcKWithAi hackathon

SKILLS

C++,Python, Web Development, Problem Solving and Algorithm, Team Collaboration, Strong Communication, Presentation Skills, Eagerness to learn, Patience, problem solving, marketing.

- **NexHire — AI-Powered Job Matching Platform** Built a dual-role recruitment platform with AI-based job matching, recruiter workflow management (shortlist, schedule, offer), real-time in-app notifications, and role-based authentication — deployed as a standalone single-page application.
- **MediCare** - MediCare+ is a hospital patient management system that uses a priority queue to treat critical patients first based on the severity of their condition.
- **TaskFlow** – TaskFlow is a to-do list management system that organizes tasks based on their priority, so the most important tasks are completed first.
- **EduTrack** - It is a student record management system that stores, organizes, and analyzes student data like marks, attendance, and contact details efficiently.
- **MoodMate** – It is an AI-powered web application that detects a user's facial emotion in real time using computer vision and recommends songs based on the detected mood.
- **ClarityAi** – It is an AI-based web application where it suggest the best suitable way when we are in confused state
